

Ferrari 308 GTB Group 4(v1.0) by F40 LM Lover & VerdesGarage

It is Required CSP 2.3 Preview1.

1. 3d Model

- 1) Base model from Gran Turismo 7
- 2) Many parts are made by myself

2. Sound by hillclimber12

3. Extra Function Keys

- EXTRA A : Left Door Open/Close
- EXTRA B : Right Door Open/Close
- EXTRA C : Motor Hood Open/Close
- EXTRA D : Engine Start/Stop
- EXTRA E : Extra Fog Lights On/Off
- EXTRA F : Fog Lights On/Off

4. Visual Options in set-up

- Extra Fog Lights can be disabled/enabled
- Co-Driver can be disabled/enabled
- Mud Flaps can be disabled/Enabled
- Tyre Shapes and textures can be changed(Tarmac/Gravel/Snow) with Certain physics

This is not a bug! You can find wierd Rims & Tyres in CM Showroom
But In-Game Situation, You can choose just one tyre pattern and rim type.
I have used Custom Tyre meshes function of C.S.P

5. Physics by VerdesGarage who is one of the best rally car modder

- Two types of Engine MAP(Standard/QV), You can set it up in Fuel tab of Set-Up
- He made three setups(Tarmac/Gravel/Snow), "Look in the description of the car in CM and you will see the links, copy-paste in google to install"
- . Gravel Setup : <https://acstuff.ru/s/QCYmAk>
- . Snow Setup : <https://acstuff.ru/s/WPuMMm>
- . Tarmac Setup : <https://acstuff.ru/s/KnfKLh>
