

AI Car Tune Editing (Assetto Corsa Car Tuner)

Mirandopolis SP (may be useful for any street circuit)

Kunos' Car

If the car is not presented in this list probably it will race OK on the track

If some non-listed chosen car is braking too much/earlier, create a tuned version with more BRAKE_HINT value

If you don't find the parameter just copy and paste the section and the line below (e.g. [TYRES], [UNDERSTEER]).
